ABSTRACT: Following the negativity of social ideology on deaf children or generally we can say deaf people, the deaf community is therefore affected by social stigma of discrimination. Many people fails to understand the plights and rights of persons living with disabilities. For instance, you will find that most of disabled personnel are limited to social resources such as education, economic balance, employment and among others. This stigma of inequality has somehow created a vast field for human rights abuse. In that particular poem video; I testify and advocate for deaf rights, inclusivity, their values in the society and also their plights and grievances. Such deaf athletes are our key embodiments of vitality for national and international recognitions. Before wanting to change the situation, you have to know the deaf culture and the plights of disabled people. You can't bring solutions yet you don't understand the problem. Learn their way of life, learn about the challenges they encounter. This way, you will be able to come up with solutions that specifically suit their needs. Understand that some of the members of the Deaf community are stubborn just because they hesitate to trust owing to the years of neglect and discrimination they've faced.

KEYWORDS: Deaf; Education; discrimination; Language

Natureza da deficiência: surdo

RESUMO: Seguindo a negatividade da ideologia social sobre crianças surdas ou geralmente podemos dizer pessoas surdas, a comunidade surda é, portanto, afetada pelo estigma social da discriminação. Muitas pessoas não conseguem entender as dificuldades e os direitos das pessoas com deficiência. Por exemplo, você descobrirá que a maioria das pessoas com deficiência está limitada a recursos sociais como educação, equilíbrio econômico, emprego e entre outros. Esse estigma de desigualdade de alguma forma criou um vasto campo para o abuso dos direitos humanos. Nesse vídeo de poema em particular; Eu testemunho e defendo os direitos dos surdos, a inclusão, seus valores na sociedade e também suas dificuldades e queixas. Esses atletas surdos são nossas principais personificações de vitalidade para reconhecimentos nacionais e internacionais. Antes de querer mudar a situação, é preciso conhecer a cultura surda e as dificuldades das pessoas com deficiência. Você não pode trazer soluções, mas não entende o problema. Aprenda seu modo de vida, aprenda sobre os desafios que eles encontram. Dessa forma, você poderá encontrar soluções que atendam especificamente às suas necessidades. Entenda que alguns dos membros da comunidade surda são teimosos apenas porque hesitam em confiar devido aos anos de negligência e discriminação que enfrentaram.

Biodata:

Daniel Phillips is a 22 years old deaf individual. Currently undertaking a bachelor degree in Public Health (Healthcare Management). He is a tech optimist, disability rights advocate. Since childhood he has purposed to pursue technology driven changemaking and innovations; however, leadership has also been part of his passions. He volunteered to VEEZAVIZ to help come up with technological innovations to help leverage communication barriers between the deaf and the blind and the deaf and the hearings or vice versa. He is an active member of Akili Kids sign language team under the eKitabu LLC helping to come up with teaching and learning materials for the deaf school kids. He is also passionate in poetry and has written several poems. Additionally, he is also part of Young African Leaders Initiative (YALI) EAST AFRICA RLC alumnus. And he is enthusiast and passionate about solving African problems through advocacy and social entrepreneurship. He is an alumnus of Young Scientists Kenya (YSK), he strongly resonates with Eliud Kipchoge's most famous remark: "No Human Is Limited." He is committed to champion for the rights of persons with disabilities; especially in the areas of inclusive education and employment.
